Respected Sir,

Ref: Request to correct the low-hanging electricity pole line

We live in the village of Orikottai of Orikottai panchayat. The power pole line in our street is hanging at a very low height and is considered a menace to the public passing that way, so we humbly request that you repair the power pole that can come through to prevent unnecessary accidents in the forthcoming rainy season.

Your faithfully respectful citizens have come together to make a request of you.
